Graduated from Peking University Health Science Center in 1990, Professor Hao is now a worldwide renowned HPB surgeon clinically and academically. He worked as a postdoctoral fellow in California Pacific Medical Center for 2 years from 2001 to 2003, a visiting professor in University Louis-Pasteur of Strasbourg for 6 months during 2005 to 2006, and a visiting scholar in Johns Hopkins Hospital for 2 months in 2008. He is presently the Chief and Professor of the Department of HPB in Peking University Cancer hospital. Professor Hao established the first evidence-based Guidelines in the Management of Colorectal Liver Metastases in Asia in 2007. He advocates the role of MDT in clinical work and emphasizes the importance of clinically-oriented researches.
